

## *Remanufactured Vehicles*

### **5.000 Definitions (VC §§507.5, 507.8, and 4153)**

**“Remanufactured Vehicle”**—A vehicle that has been constructed by a licensed remanufacturer and consists of any used or reconditioned integral parts, including but not limited to, frame, engine, transmission, axles, brakes, or suspension. An existing vehicle incidentally repaired, restored, or modified by replacing or adding parts or accessories **is not** a remanufactured vehicle. Remanufactured vehicles may be sold under a distinctive trade name.

**“Remanufacturer”**—Any person who, for commission, money, or other thing of value, produces a vehicle that consists of any used or reconditioned integral parts, including, but not limited to, frame, engine, transmission, axles, brakes, or suspension. A person who incidentally repairs, restores, or modifies existing vehicles by replacing or adding parts or accessories **is not** a remanufacturer. A licensed remanufacturer **must**:

- Identify the vehicle based on the existing Vehicle Identification Number (VIN) by writing the VIN on the Application for Registration Remanufactured Vehicle (REG 7) when a used frame is incorporated into the vehicle.
- Die-stamp the VIN to the frame when a new VIN is assigned.
- Disclose that the vehicle is remanufactured and contains used and/or reconditioned parts.
- Remove the original manufacturer’s trade name unless the original manufacturer and the remanufacturer are the same.
- Disclose on the VIN plate or label that the vehicle is remanufactured and includes used parts.

### **5.005 Certificate of Remanufactured Vehicle (REG 8)**

An **original** Certificate of Remanufactured Vehicle (REG 8) **must** accompany a remanufactured vehicle registration application. A photocopy **is not** acceptable.

**5.010 Application for Registration Remanufactured Vehicle (REG 7)**
